## INSPIRED COMPOSER PROGRAM

- Terms of Use -

The Inspired Symphony Orchestra launches the "Inspired Composers" program from January 2019, enabling young less experienced composers to produce introductory material and references that play with live orchestras in high quality.

We want to support beginner productions and young composers in their work to have the opportunity to use live instruments. Because of the low costs, it becomes affordable for productions with lower budgets to use a larger number of live music recordings.

As part of the program, we would like to offer seasonal discounts periodically and shared session recordings where even only 10 minutes of music recording is possible.

Application to the program is possible at the [inspiredsymphony.com/composerprogram](https://inspiredsymphony.com/composerprogram) web site. The age limit of the participation on the program is 40 years. We are offering special rates to composers over 40, but the Composers Program is dedicated for young composers in order to help realizing their first works.

2019.12.08.
